

balloc.evitca

Try to reproduce the site design <https://www.activecollab.com/>!

```
console.log("balloc.evitca".split("").reverse().join(""));
```

And try to respect the following best practices:

HTML Structure

- Indent (see Atom)
- Doctype + `<meta>` + `favicon`
- Importance of comments `<!-- -->`
- Classic Tags (`id` and `class` names without spaces, etc ..)
- HTML5 Tags, eg `<navbar>`
- `data-src` (images), etc ..
- Content Structure

Integration of CSS

- Do not use it in the html tags or in the header, but in a dedicated css file with link `<link rel="stylesheet" href="style.css" />`
- <https://openclassrooms.com/courses/apprenez-a-creeer-votre-site-web-avec-html5-et-css3/mettre-en-place-le-css>
- Basic CSS
- Bonus CSS: `@keyframe`
